

BCI Lab Course Project
SRS Report

Project Title

Group Members Details

Name (System ID)

Review of Research Papers

Objectives Addressed in Each Paper

Paper No.	Title	Year	Objectives Addressed

Datasets Used in Papers

Paper No.	Dataset Name	Dataset Link	Purpose of Dataset

EEG Data Preprocessing Techniques used in Papers

Paper No.	Filtering	Artifact Removal	Normalization	Segmentation	Feature Extraction

ML/DL Approaches Used in Papers

Paper No.	ML/DL Approaches used	What reason do the authors mention to consider that	Performance Achieved

Details of Our Project:

1. Objective of our Project:
2. Experimental Dataset Considered:
3. Preprocessed Methods Considered:
4. ML/DL Approach Considered:
5. Draw a block diagram of your proposed approach using draw.io or similar tool.
6. Tools and Libraries will be Considered for Implementation
7. Project timeline (date-to-date)
